

PowerPeel® Microdermabrasion PM (Preventive Maintenance) Program Only \$450 (+6% PA Sales Tax)

Now is the time to take advantage of our PowerPeel® Microdermabrasion PM Program and restore optimum performance to your machine.

The PM Program includes:

1. New press blocks for clean and waste containers
2. New compression plugs for clean and waste containers
3. New fittings – internal and external to the machine
4. New fittings – base of handpiece
5. New tubing – internal and external to the machine
6. New filter for waste container
7. Clean and adjust internal filter
8. Vacuum pump diagnostic check
9. Handpiece pressure check
10. Container pressure check

This thorough, preventative maintenance procedure can help you avoid a more costly repair in the future while maintaining optimal performance. If your machine is in need of any repairs or parts **not included in the PM Program**, our Service Technician will notify you to obtain authorization prior to the repair.

For more information, or if you would like to take advantage of this program, please call:

UBS Aesthetics (800) 925-5022

The customer is responsible for the shipping cost of the unit + \$22 in handling fees. If you do not have the original shipping crate, please take the unit to any professional packing and shipping facility to ensure proper packaging. UBS Aesthetics reserves the right to refuse any shipment that arrives damaged due to improper packaging.
